## PROJECTS

**Project Built Using Django:**

- **Restaurant Management (https://github.com/Poojachaudhary960/RestaurantManagement)**
  (Developed a full CRUD-based application to manage menu items, customer orders, and restaurant operations effectively.)

- **Hospital Management System (https://github.com/Poojachaudhary960/Hospital-Management)**
  (Created a full-stack hospital system with modules like appointments, medical records, billing, inventory, and emergency services. Included user roles for doctors, staff, and patients.)

**Project Built Using React.js:**

- **Thakali Restaurant (https://github.com/Poojachaudhary960/Thakali-Restaurant)**
  (Designed a frontend site with pages like Home, About, Contact, Map Integration, and Gallery using React. Focused on responsive design and clean UI.)

- **Intern React Assignment (https://github.com/Poojachaudhary960/React-Assignment)**
  (Completed during internship. Replicated a basic Coursera website layout with React components and routing.)

- **Ecommerce–website (https://github.com/Pooja-chaudhary960/Ecommerce-website)**
  (Developed a responsive e-commerce app with category-wise pages (Women, Men, Kids), cart functionality, and dynamic product display using React and state management.)

- **My-Portfolio (https://github.com/Pooja-chaudhary960/My-Portfolio)**
  (Built a personal portfolio showcasing projects, skills, and contact details. Features downloadable resume and clean navigation.)

## CERTIFICATIONS

- **Python with Django** (From Mindrisers Institute of Technology)
- **React.js** (From Softech Foundation Pvt. Ltd)
